

# Specialty Near Edge Wax/Resin Color

M295C

## Product Description

Print speeds of up to 20 IPS (508mm per second) make this ribbon ideal for flexible packaging applications where speed is critical in the manufacturing process. With our exclusive backcoat technology and anti-static properties for maximum printhead protection, it offers durability and clear images for thermal transfer overprinting on prime retail packaging applications. Available in bright white and silver, this near edge ribbon is widely acknowledged for its opacity, which provides dramatically visible printed images onto multi-colored prime retail packages.

## Standard Colors

Bright White

Silver PMS 877C\*

Pantone® Matching System (PMS)

\*Colors may vary by substrate

## Recommended Applications

Food & Beverage

Health & Beauty

Pharmaceutical

Retail

## Product Features

High-density	✓
High-speed	✓
Printhead Protection	✓
Proprietary Backcoat	✓

## Recommended Substrates

Economy Synthetics	Polyester Polyethylene Polyolefin Polypropylene
Specialty Materials	Nylon

## Ribbon Properties

Ink	Wax/Resin	
	Bright White	Silver
Color	Bright White	Silver
Base Film Thickness	4.5 ± 0.5µ	4.5 ± 0.5µ
Ink Thickness	1.9 ± 0.5µ	1.7 ± 0.4µ
Total Thickness	6.4 ± 1.0µ	6.2 ± 0.9µ

## Product Compliance

- Compliant with REACH, RoHS and FDA (indirect food contact) regulations
- Halogen-free
