A200
LABEL APPLICATOR

A200 Bottle Label Applicator
Easily and consistently apply labels to cylindrical objects

The A200 is a semi-automatic labeling machine designed for applying labels on rolls to bottles, cans, jars, and other types of cylindrical containers. Both single and front-and-back labels can be applied with a simple push of a button, or with the included foot pedal.

An easy-to-use calculator is available to quickly determine values for perfect placement and gap widths. The ultrasonic media sensor is easily trained to detect gaps in a wider range of media than mechanical flag sensors common in other applicators, allowing the A200 to perform consistently, even on thin materials. Labels are affixed evenly, efficiently, and with consistent accuracy.

Key Features
✓ **Designed for wine bottles, cans, jars, etc.**
✓ **Label up to 600 containers per hour**
✓ **Apply one or two labels per container**

Digital LCD touch panel
Simple-to-use digital display panel shows status information and facilitates easy setup
Operation modes
Choose between simple push button or hands-free foot pedal operation

Ultrasonic sensor
Reliably sense gaps in a wide range of media

Small to large sizes
Compatible with container sizes ranging from 1 to 6.3 inches (25-160mm) in diameter

Dimensions:	365mm (14.4") W, 245mm (9.5") H, 330mm (13") D		**Label width:**	25 to 150mm (1 to 6 inches)
Weight:	12kg (26.5 lbs)		**Label length:**	25 to 500mm (1 to 19.68 inches)
Container diameter:	25 to 160mm (1 to 6.3 inches)		**Label gap:**	>2.5mm (.1 inches)
Container height:	80 to 240mm (3.15 to 9.45 inches)		**Dispensing speed:**	0.1m/sec (4 in/sec)
Label roll diameter:	<200mm (7.87 inches)		**Supply voltage:**	North America - 110V AC, 60 Hz Europe, Middle East, Asia - 220V AC, 50Hz
Core size:	46 to 76mm (1.8 to 3 inches)
